With responsible investing you can grow your money and contribute to sustainable development.

Companies that meet responsible investment criteria are just as profitable as other companies – sometimes even more.

BUILDING YOUR WEALTH

Today's global economy presents a lot of challenges for companies. We believe that corporations that value the environment, society and governance as much as their own financial management are better equipped to meet these challenges. As a result, investing in responsible companies can offer you an attractive return potential.

MORE FOR YOUR MONEY

With expenses similar to those found in a traditional mutual fund, the SocieTerra Funds and Portfolios aim to give you more for your money. Besides having access to world-renowned portfolio managers, you'll benefit from the expertise of a dedicated team working to improve the practices of the companies in which they invest your money.

A DIVERSIFIED INVESTMENT

The SocieTerra Funds and Portfolios feature security diversification that includes all sectors of activity. A real boon to your investments! Moreover, thanks to our exclusion filters, you'll have the satisfaction of not financing companies drawing income from the tobacco, weapons and nuclear energy industries. This is our way of providing you with conscientious diversification.
